

THITHIYA
ENERGY GROUP PTY LTD

Company Profile

2025

About Thithiya

Thithiya Energy Group Pty Ltd is a diversified, solutions-driven enterprise operating across Southern Africa. The company delivers integrated services across energy infrastructure, safety systems, and essential operations support—serving both public and private sector clients. With capabilities ranging from fuel logistics to industrial hygiene, Thithiya Energy Group is positioned as a trusted partner in high-compliance environments.

Vision

To be a regional leader in energy and essential services—delivering operational reliability, safety, and sustainable value to our clients and communities.

Mission

To provide high-quality, compliant, and customer-focused solutions across fuel, safety, hygiene, and logistics sectors—anchored in professionalism and continuous improvement.

Strategic Objectives

- Expand **oil rig and offshore cleaning capabilities** through specialized training and equipment.
- Grow **fuel and oil storage infrastructure** across key industrial and transport zones.
- Partner with **municipalities and private sector clients** for safety, hygiene, and fuel supply contracts.
- Strengthen **compliance and ESG practices** to align with global standards.
- Develop **local skills and empowerment programs** to build community resilience.

Our Values

Integrity: We uphold transparent, ethical, and responsible business practices.

Safety: We prioritize health and safety in every operation.

Excellence: We pursue quality, reliability, and efficiency at all levels.

Sustainability: We protect the environment and promote long-term community impact.

Partnership: We build lasting relationships with our clients and stakeholders.

Core Services

01

Oil & Gas Distribution

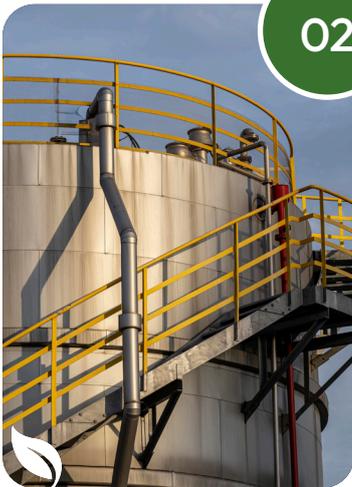

Thithiya Energy Group provides **end-to-end bulk fuel logistics and distribution** throughout Namibia and the Southern African region.

Capabilities

- Bulk supply of diesel, petrol, and lubricants for industrial, mining, and agricultural clients.
- Mobile refueling services for fleets and construction operations.
- Automated fleet fuel management and reporting systems.
- Emergency fuel response logistics for remote or high-demand locations.
- Quality control under **SANS and ASTM** specifications.

Value

- Reliable, traceable, and compliant energy distribution that ensures operational continuity for critical sectors.

02

Oil Storage Facilities

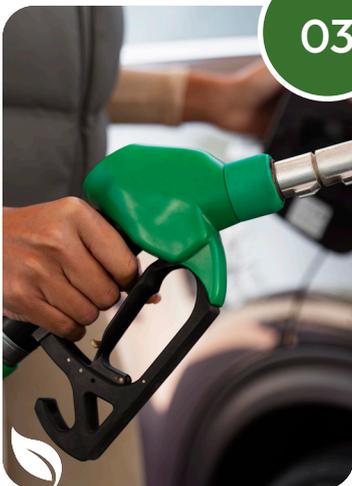

We manage and operate **secure, compliant petroleum storage facilities** designed for safety, efficiency, and environmental responsibility.

Features

- Bulk storage tanks meeting **API and ISO** design standards.
- Fire suppression and spill containment systems.
- Automated stock tracking and fuel redistribution.
- Environmental protection through secondary containment and spill prevention systems.

Value

- Safe, efficient, and environmentally compliant storage solutions supporting national fuel security and third-party logistics.

03

Petrol Service Station Operations

We provide **turnkey management** of petrol stations and retail forecourts, ensuring safety, uptime, and superior customer experience.

Offerings

- Continuous retail fuel supply and maintenance management.
- Trained forecourt staff and operational monitoring systems.
- Lubricants, additives, and retail convenience supply.
- Strict adherence to NAMCOR and Ministry of Mines and Energy guidelines.

Value

- Consistent, compliant, and customer-focused retail energy operations built on trust and performance.

04

Health & Safety Equipment Supply

Thithiya Energy Group supplies **comprehensive occupational health and safety (OHS)** equipment and solutions for all industries.

Products and Services

- Full range of PPE: helmets, respirators, gloves, and protective clothing.
- Fire safety systems, signage, and spill response kits.
- Sanitation and hygiene supplies for industrial and office use.
- Equipment certified under **SABS, ISO, and OSHA** standards.

Value

- Reliable, certified, and cost-effective safety supply chain management that ensures workplace compliance and protection.

05

First Aid Equipment & Training

We equip organizations to handle emergencies through **certified equipment and accredited first aid training programs**.

Services

- Provision of SABS-approved first aid kits.
- Corporate and industrial emergency response training.
- Workplace audits and emergency readiness assessments.
- Scheduled refilling and maintenance of first aid kits.

Value

- Building safety readiness and legal compliance through hands-on, accredited training and reliable equipment supply.

06

Commercial & Industrial Cleaning

Our industrial cleaning division operates in high-risk, high-compliance environments such as fuel depots, rigs, and plants.

Specialties

- Oil rigs, offshore platforms, and refineries.
- Fuel depots, storage tanks, and mechanical workshops.
- Hazardous waste handling and confined space cleaning.
- Degreasing, sludge removal, and post-spill remediation.

Technical Edge

- Rope access and confined-space certified technicians.
- Environmentally friendly cleaning agents.
- Waste disposal in compliance with national environmental regulations.

Value

- A dependable partner for high-risk cleaning that protects personnel, assets, and the environment.

Import & Export of Energy Sources

We facilitate the **international movement and clearance** of energy products and related equipment.

Products and Services

- Customs clearance and regulatory compliance for oil, gas, and lubricants.
- Energy trade documentation and logistics coordination.
- Importation of specialized energy equipment and safety systems.

Value

- Streamlined, compliant trade operations that simplify international procurement and ensure timely delivery of energy resources.

Energy Exploration (Onshore & Offshore)

Thithiya Energy Group supports **energy exploration projects** through logistics, technical services, and site maintenance.

Services

- Rig and vessel refueling and support logistics.
- Site cleaning, survey preparation, and compliance audits.
- Offshore crew support and material transport.
- Equipment maintenance and inspection.

Value

- Dependable operational support enabling safe, efficient, and compliant exploration activities.

Sustainability and Community Impact

We recognize that long-term success depends on environmental care and social responsibility.

Thithiya Energy Group is committed to:

- Employing and training local communities.
- Reducing environmental footprint through efficient waste management.
- Promoting renewable practices where possible.
- Supporting local development initiatives and youth skills programs.
